

Art Board

Art Board is synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%.

Low Price Art Board Made in China

Bear "Customer first, Excellent first" in mind, we operate closely with our customers and supply them with efficient and expert services for Ordinary Discount China Best Acoustic Soundproof Interior Art Board for Wall Decoration, We welcome new and previous clients from all walks of lifetime to get in touch with us for future small business interactions and mutual success! Ordinary Discount China Sound Absorption, Acoustic Panels, Being guided by customer demands, aiming at improving the efficiency and quality of customer service, we constantly improve solutions and present more thorough services. We sincerely welcome friends to negotiate business and start cooperation with us. We hope to join hands with friends in different industries to create a brilliant future.

1.Introduction of Polyester fiber acoustic panel

Polyester fiber acoustic panel is synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%. We also have patent technique for permanent fire retardant with our acoustic panels. There are more than 44 colors for you to select. You can also cut the acoustic board into any shape as your requirements.

It is designed primarily for commercial interiors:

as a perfect replacement panel for textile-covered tiles in workstation systems

to provide a lighter, more flexible and recyclable wall panel and demountable partitioning system

an acoustic panel system

a sustainable substitute for ceiling tiles and soft floor applications.

Our Polyester fiber acoustic panel can be used in many public places like cinema, theaters, dance halls, auditorium, multi-purpose hall, gymnasium etc. The sound absorption property of Polyester fiber acoustic panel is good in the range of middle and high frequency. It has the advantages of heat insulation, fire retardant, dust prevention, light weight and no decay, also has better sound absorption effect, high strength, good decoration, easy installation, environmental friendly.

2.Specification Of Polyester fiber acoustic panel

Product Name	Art board
Material	100% Polyester Fiber
Density	200kg/m ³
Weight	1.8kg/m ³
Size	1220*2420mm
Thickness	3mm - 15mm or customized thickness
Flame retardant (CNS)	B1
FSI	Class A
NRC	0.85-0.95
ECO Grade	E1
Certificates	American CA117, British BS5852, Australian AS1530, CE

Colors

More than 44 colors available or customized colors
