Honesty is our principle, qualified operation is our work, service is our goal, and customers' satisfaction is our future!

1. Product Introduction of Beveled Polyester Fiber Panel

Polyester Fiber Panel is also called polyester fiber decorative sound-absorbing panel, which is a kind of decorative material with sound-absorbing function made of polyester fiber as raw material by hot pressing and needle punching. When client put the polyester on the wall, it is better to bevel the edges then the connecting point would look much more nature and beautiful. So most client would use the Beveled Polyester Fiber Panel.

2 .Features of Beveled Polyester Fiber Panel

Decorative: the panel can be cut to different size and shape by CNC Cutting Machine

Flame-retardant: ASTM E84 Testing Class A Grade

Sound absorption: NRC0.7-0.95 with different air gap

Impact resistance, easy to clear, durable, thermal insulation, recycled material and Eco- friendly. It is an ideal replacement for the traditional fiberglass acoustic panel

Lightweight fabric sound-absorbing panels are lightweight and exquisite, weighing only 1--3kg per square meter, which can greatly reduce the load on the steel frame of the building and improve the seismic performance.

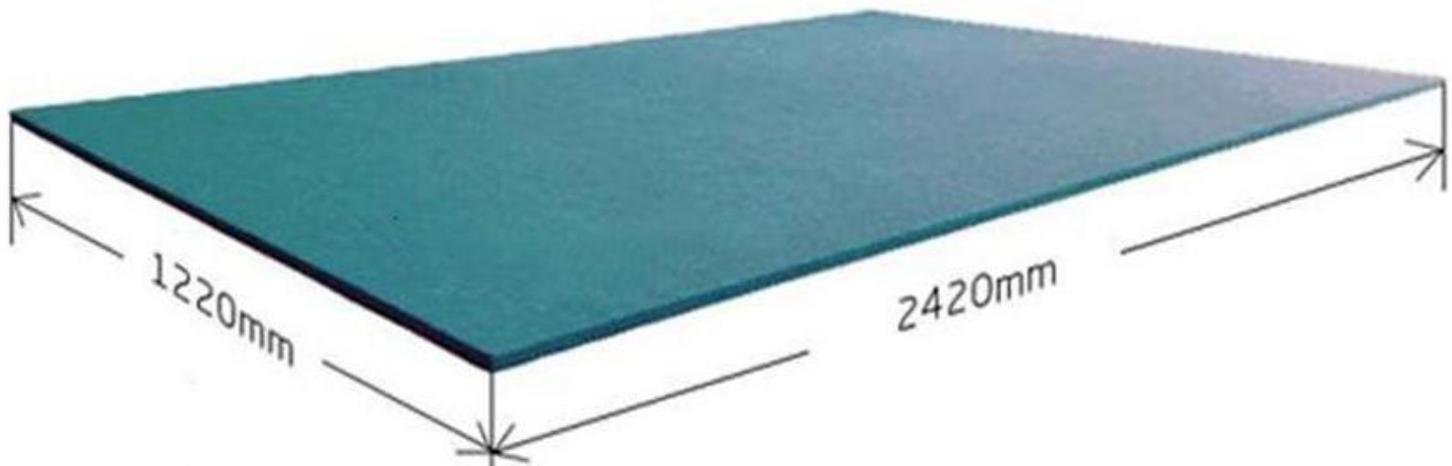

Strong elasticity With good elasticity, it is not easy to break under strong impact.

3 .Applications of Beveled Polyester Fiber Panel

The polyester fiber panel is widely used in the following areas: Cinema, theater, healthcare center, shopping malls, clubs, education room, stadium, home decoration, office, baffle, home theater, meeting room. It can provide a safe, quite and delightful environment for the people inside.

4. Further processing of the Beveled Polyester Fiber Panel

The finished panel is 2420*1220mm, rectangle shape. We have the blade cutting station and laser cutting machine. And the panel can be cut to different sizes such as 1200x1200, 1200x600, 600x600, 300x300, or in round, hexagon shape, or any irregular shapes.

The four edges can be beveled, the connecting parts looks more natural on the wall in this way.

The white color can also be printed with patterns or pictures, to make it more decorative.
